Delivering the Workplace of the Future Today

We believe it is not enough to adapt to what the future brings. We're creating the future of standing desks through sustainable innovation. Our products are not only functional and flexible, but are also made in a manner that reflects the environmental priorities of modern companies.

“When people and products connect a workspace comes to life.”

Our Austin, Texas Factory

Xdesk originated as a project to create the standing desk we wanted to use ourselves. Our vision is to create furniture that can journey the world with you, and exhibit a character and charm that tell a story.

We believe in designs that are simple, timeless, rugged and durable. Our handcrafted desks are made right here in Austin, Texas. It's the natural, real solid wood and metal furniture you've always wanted.

Genuine Bamboo
light / medium / dark

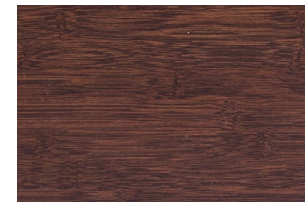

The calming, natural tones of Bamboo deliver style, serenity and an ageless beauty to any space. Growing up to 39 inches in a single day, bamboo is the fastest growing woody plant on earth. We select the highest-grade premium bamboo and apply a solvent-free and UV-cured durable finish.

Genuine Solid Materials

Xdesk embodies an understanding of a few simple design principles that make recognizable at first glance. Our premium desks are made from solid aluminum or steel, alluding to a time

when furniture was built to last. You'll find fascinating lines and materials set Xdesk apart from every other desk on earth and make them truly unique.

Vintage Industrial

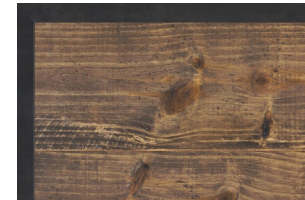

rustic wood / steel / rustic wood + steel edge

No: VINT-10

Available sizes:
72", Custom
Machined/Finished: USA

No: VINT-30
Type: Wood + Steel
Color: Rustic/Steel
Available sizes:
72", Custom
Machined/Finished: USA

Vintage is a loyal testament to the craftsmanship and values of days gone by. The rustic wood and steel patina finish work is an artistic process that validates tradition and innovation should always be closely linked.

Vintage desktops can be fabricated from natural steel or rustic wood or a combination of both. It's how we bring dreams to life. And how we create something unique.

Hand Crafted in Texas by Master Craftsmen

Xdesk Vintage is a loyal testament to the craftsmanship and values of days gone by. In a world where fewer and fewer things are made by people that like making, we're excited to make

furniture for you the same way as our forefathers. Set near the beautiful Texas hill country, Xdesk makes each piece by hand and with incredible attention to detail, even in areas never seen.

Genuine Solid Plantation Oak (Rubberwood Tree)

light / medium / dark

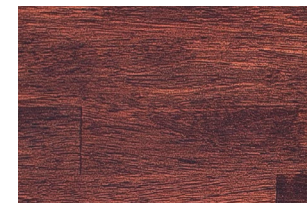

This gorgeous wood looks a lot like oak but is highly sustainable. After 30 years of latex production, rubber trees must be replaced with new ones. Instead of burning them, they're converted into desktops with a dense, warm grain that's protected by a solvent-free and UV-cured durable finish.

No: RW-10
Type: Rubberwood
Color: Light
Available sizes: 48", 60", 72", Custom
Machined/Finished: USA

No: RW-20
Type: Rubberwood
Color: Medium
Available sizes: 48", 60", 72", Custom
Machined/Finished: USA

No: RW-30
Type: Rubberwood
Color: Dark
Available sizes: 48", 60", 72", Custom
Machined/Finished: USA

WoodFree™ medium / dark

WoodFree™ presents an alternative to cutting down tracts of trees—by using leftover agricultural products that would otherwise go to waste. Wheat farmers were burning fields of stalks after the yearly wheat harvest. It was the perfect opportunity to work with farmers to buy their waste product.

No: WF-20
Type: WoodFree
Color: Medium
Available sizes: 48", 60", 72", Custom
Machined/Finished: USA

No: WF-330
Type: WoodFree
Color: Dark
Available sizes: 48", 60", 72", Custom
Machined/Finished: USA

Renew™ Recycled Wood

polar white / slate grey / carbon black

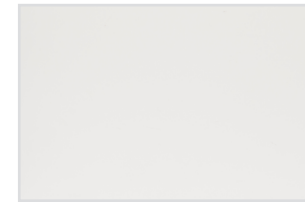

This gorgeous wood looks a lot like oak but is highly sustainable. After 30 years of latex production, rubber trees must be replaced with new ones. Instead of burning them, they're converted into desktops with a dense, warm grain that's protected by a solvent-free and UV-cured durable finish.

Renew™ Recycled Wood

polar white / slate grey / carbon black

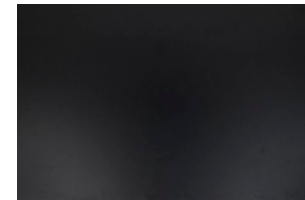

Our 100% recycled and reclaimed wood desktops are sourced from forestry operations, orchard pruning, sawmills and construction sites. The material diverted from landfills is closely inspected and then CNC machined to exacting specifications. This precision allows the addition of those important small details like comfort edges and soft radius corners.

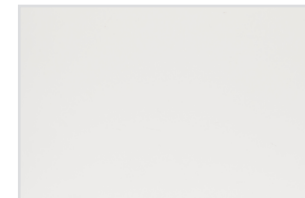

No: RNW-10
Type: Recycled Wood
Color: Polar White
Available sizes: 48", 60", 72", 84" Custom
Machined/Finished: USA

No: RNW-20

Inspired, Iconic design. Independent spirits.

Every Xdesk expresses its own point of view. Our distinctly modern aesthetic and uncompromising quality come through in every detail.

3D Laminate Desktops

driftwood / blackwood / barnwood / red elm / black / silver grey

Laminate desktops are made from composite wood formed under high temperature. The image of hardwood is then placed over the composite wood, covering it to form the laminate. Laminate is one of the most scratch resistant materials available on a desk and is the budget-friendly choice.

No: LAM-10
Type: Laminate
Color: Driftwood
Available sizes: 48", 60", 72"
